Mumbai

SUMMARY

Skilled software developer with 5+ years of experience who can bring diverse skill set to application development along with strong analytical and creative problem solving abilities.

EXPERIENCE

Software Developer

BNP Paribas India Solutions 12/2016 - Ongoing Mumbai

ARROW-DOME(Domestic Payment processing Engine)

- DOME is an event driven, batch processing payment engine to process domestic payments of BNP Paribas in European countries for a replacement of existing legacy payment system.
- Involved in back end JAVA service design and development of batch processes using spring boot, REST api, apache camel & activemq.
- Exposure to front end framework like angular 4 while developing DOME-GUI module which is an interface to manually intervene the payment processing operations.
- Apart from development, worked on streamlining the process of application version and release management using jenkins, git & maven.
- Gained functional knowledge of payment system and overall system architecture design process.

Software Engineer

Tata Consultancy Services 12/2013 - 12/2016 Mumbai

NSE-NGCD(New Generation Currency Derivatives) & Web Portal.

- Mostly involved in developing java processes to migrate login module(broker login, order routing) of a trading system.
- Worked extensively on changed requests and involved in production support activities of Currency and Equity derivatives trading system.
- Designed & Developed a web portal using spring mvc & shell scripts to automate trading system related tasks, operations and report generation process.
- Learned the basic business knowledge of Equity and Equity Derivatives market.

PASSIONS

Passionate to learn new technical skills and implement them.

Love to design and provide solutions to critical problems.
